

Keeping Babies Safe!

By providing a safe sleeping environment.

- ❖ The **Caring Through Cribs** project through Success By 6 and Kids Central, Inc. can provide new parents and caregivers with information, training and resources (including a crib, if needed), free of charge, to promote a safe sleeping environment for your baby.

For more information contact **Geraldine Lochren,
Program Coordinator of Success By 6, at **(352)369-2315**
or email glochren@elc-marion.org

***Alarming statistic: In 2006 and 2007, there were 11 infant deaths in Marion County due to co-sleeping and unsafe sleeping environments. Many SIDS deaths are later determined as death due to suffocation. Find out how you can reduce the risk factors and promote safety for your newborn. It's as simple as A-B-C!
