## Adult Literacy Program

Marion County Literacy Council (MCLC) is a group of dedicated volunteers that tutor adults. We help adult students reach their individual learning goals. Our students are preparing for GED exams, learning to read and write or learning the English language.

### General Education Degree

MCLC's GED program will help prepare students to take the GED examination. They will study the five sub-sections covered in the examination.

### Adult Basic English

ABE helps people improve their basic literacy skills. There are no classrooms and everyone has their own learning plan to meet their individual needs.

### English for Speakers of Other Languages

MCLC offers English classes to speakers of other languages (ESOL). Classes range from basic English for the non-speaker to grammar and pronunciation for the advanced learner.

### Our Mission Statement

*All adult citizens of Marion County should have a resource available to help them improve their literacy skills.*

*"Changing Lives One Word At A Time"*
