Frequently Asked Questions about VPK Pre- and Post-Assessment

Rules [6M-8.620](#) and [6A-1.09433](#), F.A.C. –

PURPOSE AND USE

1. Who is it for?

All children enrolled in the Voluntary Prekindergarten (VPK) Education Program.

2. What is the benefit of using this instrument?

VPK Assessment is a research-based progress monitoring assessment that looks at specific early literacy and math skills which are predictive of children’s future educational success.

After administering the VPK Assessment, VPK instructors and administrators can benefit by downloading reports (child, class, center) to see children’s progress and modify instruction to meet each child’s needs. Additionally, the VPK instructor or administrator can print or download individualized Parent Letters in 3 languages to share with children’s families during conferences.

3. What is the purpose?

To provide VPK instructors with information about each child’s knowledge, skills and development at the beginning, middle* and end of the VPK program in order to see children’s progress and modify instruction to meet each child’s needs.

*See question 7.

ADMINISTRATION AND SUBMISSION DETAILS

4. Is the VPK pre- and post-assessment required?

Yes. All private and public VPK providers are required to administer the Florida VPK Assessment for pre- and post-assessment (AP1 and AP3) and submit the results on the VPK Assessment Online Reporting System at www.brightbeginningsfl.com.

5. Who administers the assessment?

The VPK instructor or other paid staff member who

- Meets the minimum qualifications to be a VPK instructor **and**
- Completes the training “How to Administer the VPK Assessment” by registering on the DCF child care training system and participating in an instructor-led training or online training, or by viewing the VPK Assessment Instructional DVD included in each VPK Assessment kit and documenting the date.

6. When is the assessment given (administered)? What are AP1 and AP3?

- Assessment Period 1 (AP1) is the pre-assessment, which is the first 30 calendar days of the VPK class schedule beginning with the first VPK instructional day and including non-instructional days.
- Assessment Period 3 (AP3) is the post-assessment, which is the last 30 calendar days of the VPK program ending on the last VPK instructional day and including non-instructional days.

7. The instrument also has a mid-year assessment point available (AP2). Should VPK providers administer AP2?

Though not required for most, providers should administer AP2 because it provides important mid-year information about children’s progress that can be used to inform instruction and better plan activities that appropriately meet both the needs of the class and of individual children. It offers the teacher an opportunity to see the growth that has occurred from the beginning to the mid-point of the VPK program and make any necessary modifications. **Please note, providers on probation that have chosen the OEL-Approved Staff Development Plan are required to administer AP2.**
