The link to access the Provider Portal is <https://providerservices.floridaearlylearning.com>.

Creating a Provider Portal Account

First-time Provider Portal users must register for an account to access the Provider Portal. Provider Portal users with multiple provider sites should begin by registering only one site location. This could be the provider’s primary, flagship or main location. Once a Provider Portal account registration request is approved for one provider site, the provider user will be able to create accounts for additional sites after logging on to the Provider Portal.

Troubleshooting a Provider Portal Account Error Message

If the Provider Portal user receives the following message, contact the local early learning coalition to verify that the taxpayer identification number matches the OEL database.

The license number belongs to a provider/business that is associated with a different taxpayer identification number.

If the Provider Portal user receives either of the following messages, contact the local early learning coalition to determine if a provider portal account has already been created.

The license number belongs to a provider that is already associated with a registered account.

The taxpayer or provider identification number belongs to a business that is already associated with a registered account.

If the Provider Portal user receives the following message, contact the local early learning coalition to determine if the user name (email address) has been used in the Family Portal. The coalition may need to consult with OEL to make this determination. If a user name has been used in the Family Portal, even if an application was not created, OEL will have to remove the user name from the database so it can be used in the Provider Portal. If a provider has improperly used a user name to complete SR or VPK applications for a parent, the provider must contact that parent to get a replacement user name for that application so the provider's user name can be used in the Provider Portal. Another option is for the provider to pick another user name to use in the Provider Portal.

Then, the user will click the **Inactive** button for the email address which has the incorrect email address. It is important to create the correct email address first before inactivating the incorrect email address.

Step 7 – Staffing & Capacity

The Staffing & Capacity tab collects information on how many children the facility will or can care for. These questions are asked by age group. For each care level, the Provider Portal user should enter the highest number of teachers and children for all classrooms for each care level. This tab does not calculate staff-to-child ratios, but stores staffing and capacity numbers for local early learning coalition review.

Staff-to-child Ratio is the number of children that an individual teacher is responsible for. To reflect the actual ratio, the “Teachers in Classroom” column should always be 1. For example, if you have 2 teachers with one class of 20, you should list 1 “Teacher in Classroom” with 10 “Children in Classroom” and a “Group Size” of 20. If you follow the state mandated ratios for a center or facility, please see the example below. You can omit the age groups you do not serve.

Group Size is the maximum number of children, by age, that can be in a single classroom at any given time. If you follow the state mandated group sizes for a center or facility, please see the example below. You can omit the age groups you do not serve.

Step 8 – Private Pay Rates

The Private Pay Rates tab collects information on the provider’s private pay rate based on unit of care and care level. The Provider Portal user must enter in the private pay rates for each “Unit of Care” and “Care Level” offered by the provider. Shaded cells do not permit entry. If care is not provided for that Unit of Care and Care Level, no entry is needed.

Providers that indicate they want to complete a contract to participate in the school readiness program on the General tab will also have a section on the Private Pay Rates tab to enter the Daily Rates for the School Readiness Program. The Provider Portal user may edit the \$0.00 amount for each “Unit of Care” and “Care Level” offered by the provider or click on the **SR Daily Rate Helper** button. The Helper button will automatically calculate the rates based on the Full Time Monthly Rates or Full Time Weekly Rates, and the Part Time Weekly Rates entered in the Private Pay Rates section. The rates are also editable after calculation. These rates will be utilized in the contracting process if the provider enters into a School Readiness contract with an early learning coalition.

NOTE: With Release 3.5, School Readiness providers must now answer a question regarding the family’s responsibility to pay the differential between the Approved Reimbursement Rate and the Private Pay Rate.

Private Pay Rates

Private Pay Rates

Enter the advertised rates (private pay rates) your program charges in the table. Do not include voucher/subsidy rates, sliding scale rates, employee discounts or any other discounted rates. Only complete the rate type for each age group that you offer.

Do you require the parent to pay the differential between the Approved Reimbursement Rate and the Private Pay Rate? Yes No

Daily Rates for School Readiness Program

Enter the school readiness program daily rates in the table below. These rates will be used for SR contracting purposes and to determine your SR program reimbursement rates. Only complete the rate type for each age group that you offer. You may also use the SR Daily Rate Helper feature to automatically calculate the daily rates based on the Private Pay Rates entered above. The calculations are editable.

	Infant	Toddler	2 Year Old	Preschool 3	Preschool 4	Preschool 5	School Age	Special Needs

Step 9 – Closures Calendar

The Closures Calendar tab collects information on any days the provider will be closed. The Provider Portal user will select all closure days for the provider. Once selected, the date will change from white to blue. The local early learning coalition may define reimbursable holidays for the School Readiness program, which will be shaded gray. When a provider closure date and a coalition-defined reimbursable holiday are the same, the date will be shaded dark blue. A Provider Portal user does not need to include Saturdays and Sundays on the Closures Calendar if services are not provided on those days.

NOTE: Actual reimbursable holidays will be selected during the contracting process if the provider enters into a School Readiness contract with an early learning coalition.

Using the Calendar below, please indicate (select with your mouse) all days your facility will not be offering care for children.

Managing a Profile as a Provider Portal User

Provider Dashboard

On January 1 of each program year, a button will appear next to the current program year that will allow the Provider Portal user to migrate all profile information from the current program year to the next program year (except Closures Calendar dates). To migrate profile information to the next program year, the Provider Portal user will click the **Create 2019** button. In this example, the provider is migrating profile information from the 2018 – 2019 program year to the 2019 – 2020 program year. All information from the 2018-2019 profile will migrate to the 2019-2020 profile, with the exception of the Closures Calendar. The provider can also skip a profile year and still be able to create a profile for the current year. For example, the provider had a 2017-2018 profile, but skipped the 2018-2019 profile. In order to create a 2019-2020 profile, the provider will go to the 2017-2018 profile, click the **Create 2018** button, then go to the 2018-2019 profile, and click the **Create 2019** button. The skipped profile 2018-2019 can remain Incomplete.

After a provider is active, a Provider Portal User can edit the Provider Profile, by clicking the Profile dropdown menu and then clicking the **Provider Profile** button.

Provider Portal users can manage School Readiness and VPK contracts from the Provider Dashboard.

Provider Portal users can manage School Readiness and VPK enrollments from the Provider Dashboard.

Provider Portal users can manage School Readiness and VPK attendance, as well as view reimbursement details for paid attendance rosters, from the Provider Dashboard.

Provider Portal users can click the Documents dropdown menu to access the Document Library Management function and view and upload additional documents for coalition review.

Providers are to use the calendar to note any non-instructional days on which VPK instruction will not be delivered (such as vacations or holidays) and exceptions to normal instructional days that occur during the defined calendar start and end date. Entering Non-Instructional Days and Instructional Day Exceptions can increase or decrease the Total Calculated Hours.

For example, if the Total Calculated Hours exceed 300 hours for the summer program type or 540 hours for the school-year program type (as shown in the example above), the user may remove a day (or more) by labeling it a Non-Instructional Day. Each Non-Instructional Day entered will deduct the hours assigned to that day, thereby decreasing the Total Calculated Hours. Instructional Day Exceptions can be used to change the hours assigned to that day (to increase or decrease the hours). For example, if the calendar is a few hours short, an instructional day's hours may be extended to increase the Total Calculated Hours. To add a Non-Instructional Day or an Instructional Day Exception to the calendar, click on that date on the calendar. Multiple days can be selected by clicking and dragging across multiple days on the calendar.

Enrollments - VPK

VPK Providers may manage VPK enrollment online by going to **Enrollments > Manage VPK Enrollments**. Two options are available: Request/Change Enrollment and Bulk File Upload.

Request/Change Enrollment

This feature allows VPK Providers to request or change enrollment for children in verified classes submitted through the VPK Provider Application. To begin, select the VPK Program Year, VPK Session, and VPK Class.

Request/Change VPK Enrollment | Bulk VPK Enrollment

VPK Program Year: --Select-- VPK Session: --Select-- VPK Class: --Select-- Class Start Date: Class End Date:

Max Class Size: 0 VPK Children Count: 0 Non-VPK Children Count: 0

Please Note: Based on the VPK session and instructors assigned, the maximum class size is 0. The class must have a minimum of 4 VPK children to start.

Actions	Certificate Number	Child First Name	Child Last Name	Child DOB	Child Age	Student ID	Anticipated Start Date	Actual Start Date	Termination Effective Date	Status
Please choose valid program year, session and class from drop downs to see results.										

With the VPK Program Year, VPK Session, and VPK Class selected, the class start date and end date appear as well as the max class size. This information is directly tied to the VPK Provider Application. For example, if there is one lead instructor for the school-year session submitted and verified on the VPK Provider Application, the max class size will be 11; if there are two instructors for the school-year session submitted and verified on the VPK Provider Application, the max class size will be 20.

Next, the VPK children count and Non-VPK children count are displayed. These two counts (summed together) cannot exceed the max class size. The Non-VPK children count is used to anonymously indicate private pay children participating in the VPK class. The Non-VPK children count defaults to zero. When the Non-VPK children count is used, the number of VPK children permitted in the class is reduced to maintain the max class size limit.

STATE OF FLORIDA
VOLUNTARY PREKINDERGARTEN (VPK) EDUCATION PROGRAM
Child Certificate of Eligibility

I. CHILD CERTIFICATE OF ELIGIBILITY *(Issued by Early Learning Coalition, through the Family Portal)*

1. VPK program year 2018-2019	2. Certificate number VPK737-2018	3. Certificate issue date 7/7/2018	4. Parent email address
5. Parent name 	6. Primary contact number 		7. Secondary contact number
8. Child's full name Apple Latham		9. Child's date of birth 09/09/2013	10. County Clay

The system verifies that the information entered matches a child with an approved COE for the VPK program year selected and that the child is not already enrolled (or in a non-eligible status for enrollment).

NOTE: The county on the COE does not have to match the provider's county because the child has been deemed eligible to participate in the VPK program. The enrollment process automatically updates the child's county for service to the provider's county so the corresponding early learning coalition may manage the child's enrollment with the provider.

When a matching child is found and validations checks are successful, a confirmation message appears. To continue, click Yes.

Next, the system asks for the Anticipated Start Date. This is the date the child will begin attending class. Typically, this is the class start date unless the child is starting after the class begins.

NOTE: An anticipated start date cannot be before the class start date or after the class end date. And, an anticipated start date cannot be before the child's COE issue date (as displayed on the child's COE and listed in the enrollment window).

The system validates each enrollment request to make sure the max class size is not exceeded (based on the number of instructors assigned, the VPK session type, and current class enrollment count). To continue, click **Enroll Child**.

When the enrollment request is successful, the child appears on the class's enrollment roster as "Enrollment Submitted" and the coalition receives the enrollment request for review/approval/rejection. In addition, the family receives a notification that their child's enrollment is in progress.

While the enrollment request is being processed by the coalition, the status is updated on the enrollment roster. For example, the coalition has changed the status to Coalition Reviewing.

If the coalition rejects or cancels the enrollment request, the child will no longer appear on the class roster. The VPK Director and family will receive an email notification. The family is instructed to download their child's COE from the Family Portal and re-start the enrollment process.

When the enrollment process is approved by the coalition, the child's status is Enrolled.

The screenshot shows the 'Request/Change VPK Enrollment' interface. At the top, there are filters for VPK Program Year (2018-2019), VPK Session (School-year (540 hours)), VPK Class (AF18 - AM Redbirds), Class Start Date (08/20/2018), and Class End Date (05/17/2019). Below these are Max Class Size (11), VPK Children Count (8), and Non-VPK Children Count (3). A 'Please Note' states: 'Based on the VPK session and instructors assigned, the maximum class size is 11. The class must have a minimum of 4 VPK children to start.' Below the filters is a form to 'Enroll to this Class' with fields for Certificate Number, Child First Name, Child Last Name, and Child DOB. At the bottom is a table with the following columns: Actions, Certificate Number, Child First Name, Child Last Name, Child DOB, Child Age, Student ID, Anticipated Start Date, Actual Start Date, Termination Effective Date, and Status. The table contains one row for child 'Apple Latham' with Certificate Number 'VPK737-2018', DOB '09/09/2013', Age '4y', and Anticipated Start Date '08/20/2018'. The 'Status' column for this row is 'Enrolled' and is highlighted with a red box.

Managing VPK Enrollment

The class roster has several features for managing enrollment. Providers may change the anticipated start date, request to move the child to another class, remove the child entirely from the roster because they never attended, or request a termination of services.

Change Anticipated Start Date

To change the child's anticipated state date, click **Change** within the Anticipated State Date column. A window displays. The current start date populates in the *From* field; enter the new start date in the *To* field. This feature does not require coalition approval. Click **Save** to commit the new date or click **Close** to abandon the date change and close the window. This feature is available until the actual start date is recorded through the attendance process. When the actual start date is populated in the column, the **Change** button is no longer available.

The screenshot shows a 'Change Child Enrollment' dialog box overlaid on the main interface. The dialog box contains the following information: Certificate Number: VPK737-2018, Certificate Issue Date: 07/07/2018, Child Name: Apple Latham, Child Date Of Birth: 09/09/2013, Anticipated Start Date: 08/20/2018, and Class ID: AF18 - AM Redbirds. Below this information is a section titled 'Change Anticipated Start Date' with two input fields: 'From:' containing '08/20/2018' and 'To:' containing '08/21/2018'. The 'To:' field is highlighted with a red box. At the bottom of the dialog box are 'Save' and 'Close' buttons. An orange arrow points from the 'Save' button in the dialog box to the 'Save' button in the main interface table below.

Class Change

Once the child's status is *Enrolled*, a class change may be requested. To change the child's class, click **Class Change** within the Actions column. A window displays. The current class populates in the *From* field; select the new class in the *To* field and enter the Transfer Effective Date. The Transfer Effective Date should be the first day the child will attend the new class. This feature requires coalition approval. Click **Submit Request** to send the request to the coalition or click **Close** to abandon the class change and close the window.

NOTE: Once a class change request is submitted to the coalition, a subsequent class change request for the same child is not allowed until the initial class change request is processed by the coalition.

Now that the class transfer request is submitted, the child appears on the roster for both classes. In the *From* class, the child's status is Enrolled.

In the *To* class, the child's status is Enrolled - Change Requested.

When approved, the *From* class has a termination effective date (same as the transfer effective date). If the termination effective date has not passed, the status is Enrolled. When the termination effective date occurs, the status will be Enrollment Ended. No further actions can be taken on this enrollment.

When approved, the *To* class is Enrolled with an anticipated start date and actual start date (same as the transfer effective date).

Never Attended

To remove a child from a class completely because they never attended, click **Never Attended** within the Actions column. A window displays. This feature does not require coalition approval. Click **Yes** to remove the child or click **No** to abandon the removal and close the window. Removing an enrollment changes the record's status to *Enrollment Cancelled* and the enrollment process starts over for the family. The provider's VPK Director will receive an email notification to inform them the enrollment is removed; no attendance or reimbursement may be sought. The child's record is no longer listed on the class enrollment roster or attendance roster in the Provider Portal. The family will receive an email notification to inform them the enrollment for their child was cancelled; instructions are provided to log into the Family Portal to download the child's COE and select another VPK provider.

This feature is available until the actual start date is recorded through the attendance process. When the actual start date is populated in the column, the **Never Attended** button is no longer available.

NOTE: Be very careful with the **Never Attended** feature. If the intention is to transfer the child to a different classroom, use the **Class Change** feature. If the child attended class, VPK instructional hours were used, and reimbursement is needed, use the **Terminate** feature.

Terminate

To terminate a child's enrollment, click **Terminate** within the Termination Effective Date column. A window displays. Enter the last day that services will be/were rendered and select the reason for termination. The Termination Effective Date is displayed below the Last Day of Services as one day after the last day of services. Therefore, the Termination Effective Date is the first day the child is NOT attending class. This feature requires coalition approval. Click **Submit Request** to send the request to the coalition or click **Close** to abandon the termination request and close the window.

- H. **Anticipated Start Date (MM/DD/YYYY)** = this is the date the child will begin attending class. Typically, this is the class start date unless the child is starting after the class begins.
NOTE: An anticipated start date cannot be before the class start date or after the class end date. And, an anticipated start date cannot be before the child's COE issue date. The field will accept M/D/YYYY as well.
- I. **MSID (XX-XXXX)** = this field is for public schools only. Public schools may enter their Master School Identification (MSID) number in a 6-digit format, where the first 2 digits are the district number followed by a hyphen and 4-digit school number. The MSID number can be used in lieu of the Provider ID in column A. Both IDs are accepted.

When the file is complete, name it and save it as a CSV file type.

NOTE: It may be helpful to include your provider name and class in the file name if troubleshooting is ever necessary.

When changing the file format to CSV, Excel often displays a message to ask if you want to keep using that format. If this message appears, click **Yes**.

Click the **Upload** button. A window displays. Select your file and click **Open**.

The file upload will begin. The file details will populate on a row and turn green. Click the **Refresh** button to populate the results.

The file details will be updated. The file size, total records count, committed records count, failed records count, processed time, status, and final results are updated. The file results are also returned and can be downloaded by clicking on the **Download** button.

In this example, there is one failed record and three committed records. The file download will include the error message and status for each record submitted. The three committed records are now “Enrollment Submitted” and the failed record was not included because of an invalid date of birth. The same validations that occur with a manual child enrollment occur with the bulk enrollment file process.

The three committed records are displayed on the class’s enrollment roster as “Enrollment Submitted” and the coalition receives the enrollment requests for review/approval/rejection. In addition, the family receives a notification that their child’s enrollment is in progress. The same processes that occur with a manual child enrollment occur with the bulk enrollment file process.

NOTE: When correcting records and re-uploading the file, be sure to remove the “Error or Status” column as it is not accepted for the upload. Also, it is best to NOT include records that have already been submitted successfully as they will now error as having been processed. When removing successful records and the Error or Status column, it is best to highlight the row/column and use the cut/delete option instead of just deleting the information. Excel often retains formats even if the cells are now empty.

Pending Family Acceptance Status

When a new School Readiness enrollment is created for an eligible child, families must accept the terms and conditions, establish their consent for developmental screening and/or child assessment, and sign the payment certificate. Families receive an email notification from OEL every five days until these steps are completed and the enrollment status changes from **Pending Family Acceptance** to **Enrolled**.

New enrollments in **Pending Family Acceptance** will not be visible on provider attendance rosters and will only appear once the family signs the payment certificate; however, there are exceptions.

- New enrollments for at-risk children (BG1) or at-risk children in relative care (BG3R) billing groups in **Pending Family Acceptance** will populate on attendance rosters
- Existing enrollments in **Pending Family Acceptance** that have already been submitted for attendance in previous months will continue to populate on attendance rosters

Providers will be able to process attendance and be paid for these enrollments, but not until the payment certificate is signed by the family.

If a provider has new enrollments in **Pending Family Acceptance**, when the provider accesses SR attendance, a pop-up window will display with a count of those new enrollments and a link to the Manage SR Enrollment queue.

SR Eligibility Redeterminations

The SR Eligibility Redetermination menu allows providers to view enrollments with “upcoming” or “past due” redeterminations. These queues are for informational purposes only and aid providers in knowing when an enrolled child is reaching the end of their School Readiness eligibility.

Upcoming Eligibility Redeterminations

To see the enrollments with upcoming eligibility redeterminations, navigate to **Enrollments > Manage SR Enrollments > Redeterminations > Upcoming Redeterminations**.

Redetermination records will only appear in the Provider Portal Upcoming Redetermination queue when:

- Child eligibility status is Eligible
- Child enrollment status is Enrolled or Pending Family Acceptance
- The redetermination is within 45 days from the due date

Past Due Eligibility Redeterminations

To see the enrollments with past due eligibility redeterminations, navigate to **Enrollments > Manage SR Enrollments > Redeterminations > Past Due Redeterminations**.

Redetermination records will only appear in the Provider Portal Past Due Redetermination queue when:

- Child eligibility status is Eligible
- Child enrollment status is Enrolled or Pending Family Acceptance
- The redetermination is at least one day past the redetermination due date

After clicking the **Upcoming Redeterminations** or **Past Due Redeterminations** link, the following appears.

Creating a Temporary Closure

Temporary closures must be created when the whole site or program is temporarily closed due to emergency circumstances. Provider and Coalition users can initiate temporary closures.

NOTE: Temporary closures must be created BEFORE attendance is submitted for the month in which the closure occurs.

To add a closure, navigate to **Attendance > Temporary Closures**. Click the **Temporary Closures** submenu item.

Click the **Add Closure** button.

The screenshot shows the 'Closures' table with the following data:

After selecting a day, a pop-up will appear. There are two event types available.

Instructional Day Exception – use if provider does not plan to make up calendar days for the emergency closure (up to 5 days permitted).

Non-Instructional Day – use if provider plans to deduct the calendar hours for the emergency closure days and revise its class calendar to restore days.

Instructional Day Exception

For closures that do not reduce hours, select Instructional Day Exception as the event type.

Once the Instructional Day Exception is selected, the provider will enter a description and time range for the particular day(s) they were closed. In the image below, the description example uses the verbiage “Closed due to Hurricane Dorian.” The provider will have to choose the same time range for the days as they listed on their calendars. Any hours chosen outside of their Start and End times will change their total calculated hours. Click **Update**.

NOTE: If the provider has different instructional hours per day, a separate exception day event should be created for each day (i.e. Mondays are 3 hours and Tuesdays are 3.5 hours) so that the exact hours of the instructional day are entered for the exception day event.

The information is displayed on the calendar. The total calculated class hours and total instructional days have not changed. Click **Save**.

NOTE: These steps must be completed for each impacted calendar. For example, some providers may have a morning VPK class using calendar A and an afternoon VPK class using calendar B. Since both calendars were impacted due to the closure, both calendars must be edited.

Attendance - VPK

Providers manage VPK attendance online by navigating to the Attendance menu item and selecting **Manage VPK Attendance**. Providers may submit their attendance through the web page or using a bulk file upload, similar to the bulk enrollment file upload. It is important to note that changes to enrollment, such as entering a termination date, or changes to the class schedule, such as reporting a site closure, cannot be performed in attendance. Enrollment information must be corrected in the Enrollments area. Class schedule information must be corrected in the **Contracts > VPK Provider Application** area. Any changes to source data should be done prior to submitting attendance. Coalitions may assist as needed.

Submitting Attendance Online

Select the **Manage VPK Attendance** menu item. The VPK Attendance Roster displays, defaulting to the current service period and first class. The blue summary box to the right contains class details such as the class full name, start and end dates, and max class size. If necessary, use the drop downs to select a different service period and/or class.

NOTE: A service period is the month in which services were rendered. Child absences for the service period must be marked, saved, and submitted to the coalition for payment. A due date is displayed for each service period. Providers with multiple classes must submit an attendance roster for each class for payment.

The search feature may be used to search for any criteria included in the roster (i.e. a name, DOB, age, billing group, or status). The summary feature shows the current/saved attendance information for all children in one view.

To record attendance, click on a child's name to view their attendance for the month.

- Legend: present (X), site closed (*), student not started (_), student terminated (T).
- Day_1 = first of attendance month, Day_2 = second day of attendance month, Day_3 = third day of attendance month, etc. In this example, Day_1 = August 1, Day_2 = August 2, and Day_3 = August 3.
- Regardless of the month/year, columns for Day_1 to Day_31 are included in the file and are necessary for the upload; none should be removed.
- It is critical that only the content of "Day_#" columns are changed (i.e. changing an X to an A). Attempting to add students or edit/remove system generated columns will cause errors. The file is a reflection of the enrollment information for the class when downloaded. If issues are identified, please contact the local early learning coalition for assistance.

Scroll over to the days and record absences by changing a present day (X) to absent (A). Tip: (In Excel) Open the **View** menu, select column H, and click **Freeze Panes**. This will keep the student's name and demographic information in view while scrolling through days.

Attendance - SR

Providers manage SR attendance online by navigating to the Attendance menu item and selecting **Manage SR Attendance**. Providers may submit their attendance through the web page. It is important to note that changes to enrollment, such as entering a termination date, cannot be performed in the attendance module but rather the Manage SR Enrollment area. Also, when issues appear on the attendance roster (such as incorrect enrollment information, missing children, duplicate children, missing paid holidays, duplicate absences on the same day, etc.), the issues should be communicated to the coalition before submitting the attendance roster. Coalitions may assist in addressing the issues so that the attendance records have accurate information.

Submitting Attendance Online

Select the **Manage SR Attendance** menu item. The SR Attendance Roster displays, defaulting to the current service period. The blue summary box to the right contains provider details and paid holiday information for the service period.

NOTE: A service period is the month in which services were rendered. Child absences for the service period must be marked, saved, and submitted to the coalition. A due date is displayed for each service period. Providers that contract with multiple coalitions must submit an attendance roster to each coalition.

Children that are "Enrolled" are included on the SR attendance roster.

New enrollments in “Pending Family Acceptance” will not be visible on attendance rosters and will only appear once the family signs the payment certificate; however, there are exceptions.

- New enrollments for at-risk children (BG1) or at-risk children in relative care (BG3R) billing groups in Pending Family Acceptance will populate on attendance rosters
- Existing enrollments in Pending Family Acceptance that have already been submitted for attendance in previous months will continue to populate on attendance rosters

If a provider has new enrollments in “Pending Family Acceptance”, when the provider clicks the **Manage SR Attendance** menu item, a pop-up window will display with a count of those new enrollments and a link to the Manage SR Enrollment queue.

See the Pending Family Acceptance Status section in this user guide for more information.

The search feature may be used to search for any criteria included in the roster (i.e. a name, DOB, age, billing group, or status). The summary feature shows the current/saved attendance information for all children in one view.

To record attendance, click on a child’s name to view their attendance for the month.

The screenshot displays the Attendance Calendar interface. On the left is a roster table with columns for Child Name, DOB, Age, Billing Group, and Status. The main area shows a calendar for August 2018 with days marked as Present (X), Absent (A), or Full Time (FT). A legend in the bottom left explains the codes: X for Enrolled/Present, A for Absent, NS for Non-Reimbursable/Non-Scheduled Days, H for Paid Holiday Days, T for Terminated/Enrollment Ended, * for Closed, and a blue box for Attendance has not started. On the right, the 'Child's Current Information' box for Daphne Latham shows her name, DOB (3/3/2018), Age (1), Copay (\$1.25), BGrp (BG8), and Status (Enrolled). Below this is the 'Monthly Attendance Summary' for August 2018, showing an Anticipated Start Date of 7/1/2018, 0 Days Absent, 23 Days Present, 0 Reimbursed Holidays, and 0 Non-Reimbursable Days. At the bottom right are buttons for Save, Save & Exit, Cancel, and Submit to Coalition.

- Days the site is closed are marked with an asterisk “*”
- Days the child is not scheduled to attend are marked with “NS”. If the entire month for a child is marked “NS”, contact the local early learning coalition to correct the care days.
- Days the child is scheduled to attend are marked with an “X” for present along with his/her scheduled unit of care
- Paid holidays where a child is also scheduled to attend are marked with an “H”
- A legend is provided in the bottom right for more code descriptions

NOTE: The “Child’s Current Information” displayed on the right is current as of today. When working prior months, the information displayed may not align. For example, if a child’s enrollment was terminated in February 2019, the current enrollment status is *Enrollment Ended*. Each month (prior to February) will also display *Enrollment Ended* in the “Child’s Current Information” area because it is the current enrollment status. This does not impact the ability to record attendance for those prior months. Enhancements are planned to address the display.

To change a present day to absent, click on the “X.” A pop-up message appears to collect more information.

- Select an absent reason from the dropdown.
- Include a message to the coalition regarding the absence in the Note area. *(optional for most reasons)*
- Attach a file for supporting documentation by clicking **Choose File**. *(optional)*
- Click **Save** when done and the pop-up message will close.
- The “X” for present will now appear as an “A” for absent.

- f. **NOTE:** Consecutive absences must be entered per day (i.e. there isn't a click and drag feature to select multiple days at once). However, it is not necessary to upload the same document per day when it applies to multiple days. Upload the document on one of the absences and reference it in the Note area for the other absences.
- g. Absences entered by mistake can be changed back to present by clicking on the "A." The below pop-up message appears.

If there was a file attached when the day was marked "A", the **Remove** button appears next to the document name. Click the **Remove** button to remove the file. To undo the absence, click the **Remove Absence** button. The day will show an "X", the absence reason is removed, and the attachment is removed.

Sample VPK Wrap Calculation

This is an example of a VPK wrap calculation for a child enrolled in both SR and VPK. The VPK class is 3 hours long and the child has full time care.

NOTE: The calculations are to 4 decimal places until the Gross Payment Amount, where it is rounded.

How are wrap rates calculated?

1. Provider Contract Approved Rate
2. Hourly Rate = Daily Rate/Max SR Hours *[calculated to 4 decimal places]*
3. Payable Hours = Max SR Hours - VPK Hours
4. SR Daily Rate = Payable Hours * Hourly Rate *[calculated to 4 decimal places]*
5. Gross Payment Amount = SR Daily Rate * Total Days Paid *[calculated to 4 decimal places]*

Example:

1. Provider Contract Approved Rate (PR4): \$24.50
2. Hourly Rate: $\$24.50/11 = \2.2273
3. Payable Hours: $11-3 = 8$
4. SR Daily Rate: $8 * \$2.2273 = \17.8184
5. Gross Payment Amount: $\$17.8184 * 20 = \356.3680

For this record on the 5045, the provider is reimbursed for \$356.37.
